

## Students of the institute participated in the program “My innovative project” in Andijan TV

Several members of the “Young scientists” club at the Technology center at our Institute participated in the “My innovative project” program at Andijan Television. Particularly, a student of 172 group, EEE direction Mirzarakhimov Abdulakhat with the project “Smart street light”, student of group 172, EEE direction G’ulomov Mominjon with the project “Ant blink” and a student of group 175 Mamazulunov Qudratbek and Rakhimberdiev Khurshidbek with “Green house” project. They talked about the purpose of the project and presented the process of their work. Most of the designs developed by our students made a great interest on participants.
